

GMP & The Supply Chain

**WORKPLACE TRAINING IN THE PHARMACEUTICAL
& HEALTHCARE INDUSTRIES
DELIGHTING THE TRAINEES AND THE REGULATOR**

**Somerset Maugham, British
author, dramatist (1874-1965)**

'It's a funny thing about life; if you
refuse to accept anything but the
best, you very often get it.'

*This course will develop
an understanding of
the GMP requirements
through the Logistic
Chain*

Supply Chain compliance is one of the global 'HOT TOPICS' in the world of compliance. Numerous recalls, cases of counterfeiting, issues with cold chain management etc, have made this one of the most challenging areas of GMP compliance in recent times!

This course is designed to detail the GMP requirements at all stages of the supply chain, from purchasing materials to distribution of product. Of course any part of the course can be extracted for delivering to a certain department on their own!!

As with all our courses – stories, tales and interaction guarantee a lively and informative session and ensure a real return on your training investment!

Course Outline

The course includes the following topics:

- A review of the current 'Hot Topics' in this area
- Who the regulatory authorities are & the regulations
- GMP requirements for purchasing materials, including Vendor Qualification and rating requirements
- GMP requirements for Warehouse and Storage facilities including observations and citations given to companies in this area. This section covers all types of materials, bulk liquids through packaging.
- The importance of good traceability
- Sampling – good practices
- Good Housekeeping & Dress Codes
- Distribution – what to be alert for!!!

This is a one day in-house course, but can be sectioned down and run in smaller sessions for specific audiences.

Because of the interactive nature of the material, recommended class size is limited 20.
